Sunshine Coast builder wins Custom Built Home Awards

Tonight JW Constructions (Qld) took out the 2012 HIA-CSR Custom Built Home Award for a Noosa Heads project. Earlier in the evening, the same property won the \$1,000,000 - \$2,000,000 Award category.

Other award winners include: Ryan Designer Homes (Sunshine Coast Renovation/Addition Project, Display Home and Home of the Year; Gibson Building (Wide Bay Home of the Year), Sekisui House Services (Qld) (GreenSmart Energy Efficiency and Spec Home), Update Cabinets (2012 Kitchen Project), Ausmar Homes (Project Home),

The awards were held at a cocktail function before a large audience at Novotel, Twin Waters and were compered by renowned personality, Steve Hill.

The awards held by Australia's peak industry body for residential construction, renovation and development recognise the achievements of the housing industry, as it leads the way in the design, construction, innovation and housing technology.

In congratulating the winners and finalists, HIA Branch Manager – Sunshine Coast/Wide Bay, Stuart Collins said “Each year the HIA Sunshine Coast/Wide Bay Housing Awards attract an outstanding array of entries across a number of different housing forms with this year being no different”.

He further said “It is difficult enough selecting finalists let alone winners such is the high calibre of the entries received in 2012. This healthy level of competition ensures that new standards in design, workmanship and innovation are achieved across all award categories”.

Mr Collins also remarked that “Even in these challenging times for the housing industry, there has been no shortage of top quality entries”.

“The awards are a strong statement of the commitment and resilience of HIA members in Queensland to deliver exceptional housing products that will stand the test of time. The projects on show tonight undoubtedly demonstrate that they have once again risen to the challenge” he said.

Many winners are likely to progress from tonight's awards to win State and perhaps even Australian Housing Awards. This would certainly not come as a surprise to anyone with involvement in the local awards with Sunshine Coast/Wide Bay builders having a long history of broader success” said Mr Collins.

As in previous years the awards night was well supported by the building industry.

Mr Collins noted that “Without the involvement of our many partners, important industry events like this would not be possible and thanked them for their contribution in recognising excellence within industry”.

A full winners and finalists list is attached. For further information and images please contact:
